Colors of Fall

Fall is burnt orange

**Like colorful leaves floating through the air
crackling fires glowing in the silent night
And bushy squirrels hunting for nuts**

Fall is sepia brown

**Like the quiet woods where a soft breeze blows
A chilly October day filled with singing birds
And chocolate brown horses galloping on trails**

Fall is goldenrod yellow

**Like corn fields waving in the wind
bright school buses that pass by full of kids
And the sweet California breeze that makes my day**

Fall is full of colors
